Jay stepped up to the plate this month and has shown dedication to his job by helping the company formulate sausage, although he is normally a meat cutter. He has had to change his start times; he is willing to help wherever he is needed.

When we had a special order this month, Jay helped out by formulating the sausage required for the orders and then went out of his way to help his fellow team members when we had the rib steak special order.

Regardless of the time or schedule, Jay went out of his way, going above and beyond his normal work duties, while still putting a smile on his face.

Thanks, Jay, for your hard work and dedication!
